

Pipe Cleaner Neuron Instructions

Materials

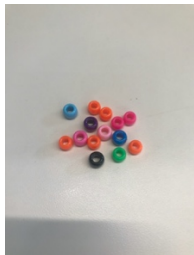

2 long pipe cleaners
6 short pipe cleaners
14 beads

1. Choose two long pipe cleaners.

2. Choose 6 short pipe cleaner pieces.

3. Choose 14 beads.

4. Twist a short pipe cleaner piece onto one of the long pipe cleaners about an inch from the end so you have 3 pieces about the same length.

5. Thread your beads onto the long pipe cleaner, alternating colors if you want!

6. Take the other long pipe cleaner and make it into a spiral, like a snail shell.

7. Gently twist 5 short pipe cleaner pieces onto the outer edge of the spiraled pipe cleaner.

8. Twist the long pipe cleaner threaded with the beads onto the spiraled pipe cleaner.

9. Finally cut off the extra pipe cleaner so there is no end sticking out.

Now you have your very own neuron!
