

Abstract Submission Agreement The NYSCF Conference

In submitting an abstract for consideration for The New York Stem Cell Foundation Conference (the “NYSCF Conference”), the primary author (the “Author”) is responsible for ensuring and agrees to the following terms and conditions:

1. Abstract Submission Standards

All abstracts submitted should contain substantive results, whether experimental or calculated.

2. Promotion of commercial products or services

Promotion of commercial products or services is **not** permitted.

3. NYSCF Research Conduct Policy

Submission of an abstract constitutes a formal agreement and statement by the Author and the abstract co-authors that they have conducted the reported research in accordance with applicable institutional and national guidelines and regulations regarding experiments on human subjects, live vertebrates or higher invertebrates and in accordance with ISSCR policies on [Guidelines for Stem Cell Research and Clinical Translation](#). Abstracts reporting any experimental work that was not conducted in accordance with these guidelines will be rejected by the program committee (“NYSCF Conference Program Committee”).

4. Identical Policy

Presentation materials presented at the poster session or during a short talk must be substantively identical to that described in the abstract. For clarity, the scientific content of the presentation must match the content provided in the abstract.

5. Presentation Limits

The Author should be designated as the presenting author and will present the work at the NYSCF Conference. No presentation may be given by an individual who is **not** the Author, unless prior written approval has been obtained by the presenter from NYSCF.

6. Author Consent

Author acknowledges and agrees that all co-authors listed on an abstract have given their consent concerning the Author’s participation in the NYSCF Conference and Author’s agreement to the terms and conditions provided within the Abstract Submission Agreement. All provided materials must be the work of the authors listed.

7. Presentation Agreement Remuneration

Author acknowledges and agrees that NYSCF will not provide any remuneration for participation in the NYSCF Conference nor for abstract submission.

8. Permission for Use of Name and Likeness

Author gives NYSCF, its agents and its representatives the right to use Author's name and the names of the co-authors and their likeness in promotional and other material published in relation to the NYSCF Conference.

9. Permission of Publication of Material

Author grants to NYSCF a non-exclusive irrevocable license to the materials they may provide for inclusion in the proceedings for the NYSCF Conference, in particular the NYSCF Conference website and/or NYSCF Conference platform. The license consists of any and all rights allowed by U.S. copyright laws and all foreign countries, including but not limited to the right to copy, prepare derivative works, and distribute provided materials. Author understands that the proceedings, including contribution, will be made available in printed and/or electronic form to the attendees of the NYSCF Conference, members of NYSCF's community, and other interested parties. Author understands that NYSCF holds the copyright for the proceedings and its contents. Author understands that the copyright of the compilation of materials in the proceedings is not the same as the copyright of an individual item of material included in the proceedings. Author understands that authors are encouraged to include copyright notices as appropriate on all the materials submitted to NYSCF for publication. Author understands that NYSCF takes no responsibility for registering any copyright and advises Author to take all appropriate steps to do so. In return, Author understands that NYSCF grants to Author the right to reprint their contribution in any proceedings for the NYSCF Conference. Authors affirm that their contribution contains no matter that is defamatory or is otherwise unlawful or invades individual privacy or infringes on any proprietary right or statutory copyright. Author affirms that the provided material is an original expression or that proper permission has been obtained at Author's own expense from the copyright holder for publication. Author will submit documentation, showing permission for use, to NYSCF at the time of submission of the materials to be distributed.

10 Indemnification Agreement

Author agrees to indemnify and hold harmless NYSCF, its agents and its representatives should material presented or provided for publication be determined to defame, libel or slander an individual or organization, violate the confidentiality of any individual or organization, or infringe on another's copyright.

11. Right to Request Additional Information:

On occasion, the NYSCF Conference Program Committee may solicit additional information from submitters to ensure that the work reported in an abstract complies with the NYSCF Research Conduct Policy (as referenced in #3 above). Failure to reply satisfactorily to a request for additional information constitutes grounds for abstract rejection.

12. Preclusion of Rigorous Peer Review

While abstracts are evaluated for scientific interest and are citable, the brevity of the presentation precludes rigorous peer review. Thus, abstract acceptance by NYSCF should not be taken as endorsement of the validity or safety of Author's research by NYSCF.
